Garden Club of America

Overview

The Garden Club of America, with headquarters in New York City, is a non-profit national organization comprised of more than 18,000 members of GCA clubs who dedicate their energy and expertise to projects in their communities and across the nation.

Founded in 1913, The Garden Club of America is a recognized national leader in the fields of horticulture, conversation and civic improvement. Currently, there are 200 member clubs in 40 states and Washington, DC, as well as eight foreign courtesy clubs. The Garden Club of America does not accept individual membership. Only established garden clubs may be considered for membership after years of recognized civic contributions within their communities.

Purpose

The purpose of The Garden Club of America is to stimulate the knowledge and love of gardening, to share the advantages of association by means of educational meetings, conferences, correspondence and publications, and to restore, improve, and protect the quality of the environment through educational programs and actions within the fields of conservation and civic improvement.

Local, regional and national programs sponsored by The Garden Club of America national committees on horticulture, conservation and environmental awareness, flower arrangement and garden design reinforce the purpose of The Garden Club of America.
